

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR Biology	CR Biology	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Biology is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Biology credit. Topics covered include:1) Structure and Function, 2) Inheritance and Variation of Traits, 3) Matter and Energy in Organisms and Ecosystems, 4) Interdependent Relationships in Ecosystems, and 5) Natural Selection and Evolution. Assignments focus on learning the content, demonstrating comprehension, and using the information to answer a hands-on investigation question.
CR Earth Science	CR Earth Science	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Earth Science is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Earth Science credit. Topics covered include: Space Systems, History of Earth, Earth's Systems, Weather and Climate, and Human Sustainability. Assignments focus on learning the content, demonstrating comprehension, and using the information to answer a hands-on investigation question.
CR Physical Science	CR Physical Science	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Physical Science is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Physical Science credit. Topics covered include: the Metric System; Properties of Matter; Structure of Matter; Classifying Elements; Compounds; How Matter Changes; Motion; Work and Machines; Heat: Sound and Light; Electricity; and Magnets and Electromagnetism. Assignments focus on learning the content, demonstrating comprehension, and using the information to answer a hands-on investigation question.
CR Environmental Science	CR Environmental Science	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Environmental Science is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Environmental Science credit. Topics covered include: Exploring Science and the Environment; The Dynamic Earth; How Living Things Interact; The Diversity of Life; Biomes of the World; People and the Environment; Energy; Water Resources and Water Pollution; Air Pollution; Solid and Hazardous Waste; Feeding the World; Protecting Biodiversity; and A Sustainable World.
CR U.S. History	CR U.S. History	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. United States History is a comprehensive course that covers the full range of United States History broken into 10 Units: The beginnings of American history to 1607, colonization and settlement, revolution and the new nation, expansion and reform, the Civil War and Reconstruction, the development of industry, the start of the modern nation, the Depression and WWII, period after WWII, and contemporary United States.
CR U.S. Government	CR U.S. Government	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. United States Government is a comprehensive course that covers: the beginnings of American government; the Constitution; the legislative, executive, and judicial branches; creation on workings of states; local governments; political parties; citizenship; and some world politics.
CR World History	CR World History	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school.
CR World Geography and Cultures	CR World Geography and Cultures	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. World Geography and Cultures covers location, physical features, people and cultures, and economies of 23 regions of the world.
CR Economics	CR Economics	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR Algebra	CR Algebra (also known as Algebra 1)	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Algebra is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Algebra credit. Topics covered include: Arithmetic with Letters; Rules of Arithmetic; Linear Equations with One Variable; Applications of Algebra; Exponents and Polynomials; Factoring; Data, Statistics, and Probability; Fractions and Algebra; Linear Equations and Inequalities in the coordinate plane; Systems of Linear Equations; Irrational Numbers and Radical Expressions; Geometry Introduction; and Quadratic Equations.
CR Pre-Algebra	CR Pre-Algebra	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Pre-Algebra is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Pre-Algebra credit. Topics covered include: Algebra and Whole Numbers; Using Decimals; Number Theory; Rational Numbers; Basic Operations; Ratios, Proportions, and Percents; Integers; Exponents, Square Roots, and the Pythagorean Theorem; Equations from Geometry; Graphing; Geometry; Data, Statistics, and Probability.
CR Mathematics Pathways	CR Mathematics Pathways	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Math Pathways is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Math Pathways credit. Topics covered include: AKGrad is a comprehensive course that covers: Number Sense, Operations, Rational Expressions, Ratios, Proportions & Percents, Integers, Exponents, Equations, Graphing, Geometry and Statistics/ Probability.
CR Geometry	CR Geometry	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Geometry is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Geometry credit. Topics covered include: AKGrad is a comprehensive course that covers: Exploring Geometry: Points, Lines, and Angles in the Plane; Thinking Geometrically: Using Proofs; Parallel Lines and Transversals; Using Algebra: lines in the Coordinate Plane; Triangles and Quadrilaterals; Congruent Triangles and Transformations; Proportion and Similarity; The Pythagorean Theorem; Perimeter and Area; Circles and Spheres; Solid Geometric Figures and Their Measures; Geometry and Imagination.
CR Consumer Math	CR Consumer Math	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Consumer Math is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Consumer Math credit. Topics covered include: AKGrad is a comprehensive course that covers 12 topics of Consumer Math: Earning Money, Buying Food, Shopping for Clothes, Managing a Household, Buying and Maintaining a Car, Working with Food, Improving Your Home, Traveling, Budgeting Your Money, Banking and Investing, Paying Taxes, Preparing for Careers.
CR Basic English	CR Basic English	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. Basic English is a comprehensive course that covers the full range of 16 English topics: sentences; nouns in sentences; pronouns in sentences; adjectives in sentences; action verbs in sentences; using state-of-being verbs in sentences; using adverbs in sentences; using prepositional phrases in sentences; using conjunctions and interjections; recognizing sentence patterns; identifying verbals and verb phrases; writing compound and complex sentences; repairing sentence problems; understanding paragraph basics; writing better paragraphs; preparing to write a report.
CR Exploring Literature	CR Exploring Literature	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. Exploring Literature is a comprehensive course that covers Genres and writing styles by reading fables, myths, tall tales and legends, short stories, nonfiction, poetry, and drama. )

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR American Literature	CR American Literature	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. American Literature is a comprehensive course that covers Genres and writing styles by through writings about: Forging America's Literary Tradition: 1620-1849; The Inspiration of New England: 1837-1860; Local Color in America: 1849-1889; the Harvest of Realism and Naturalism: 1890-1908; American Literature Comes of Age: 1905-1940; Moving Into Modern Times: 1940-1970; and Contemporary American Literature: 1971-present. Quizzes and tests are available on-line (graded immediately).
CR British Literature	CR British Literature	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. British Literature is developed with the hope that all students, especially those who read significantly below grade level, will understand and appreciate literature of that region from Anglo-Saxon times to the present. The course covers genres and writing styles through writings about: The Anglo-Saxon Period and Middle Ages: 449-1485, The English Renaissance: 1485-1660, The Restoration and the 18th Century: 1660-1798, The Romantic Period: 1798-1832, The Victorian Age: 1832-1901, Contemporary British Literature: 1901-Present, and Writings from the British Dominions. Quizzes and tests are available on-line (graded immediately).
CR Career Planning	CR Career Planning	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	0.5	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. Career Planning is a comprehensive course that covers: career exploration, self assessment, decision making, major industries, opportunities in your community, job training, communication skills, life outside work, and developing an action plan and goals. Quizzes and tests are available on-line (graded immediately) or upon request they may be sent out in a packet to a parent or a local instructor and mailed in. Study guides and lesson summaries are also available in packet form or on-line. The comprehensive check list above lists all items to be completed for the course. You may use it to keep track of where you are in the course.
CR Health	CR Health	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Health is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Health credit. Topics covered include: Personal Health and Family Life; Mental and Emotional Health; Nutrition; Use and Misuse of Substances; Preventing and Controlling Diseases and Disorders; Injury Prevention and Safety Promotion; Health and Society. Assignments focus on learning the content, demonstrating comprehension, and using the information to answer investigation questions.
CR Life Skills English	CR Life Skills English	Credit Recovery	AGS Textbook	Below Grade Reading Level	Canvas	0.5	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. Life Skills English is a comprehensive course that covers the following: Looking up information; Using Dictionaries; Other Sources of Information; Using the Telephone; Using a Library; Finding Information from Media; Finding Expert Help; Filling out Forms and Shopping by Catalog and Internet.
CR HLTH-031-S002	CR HLTH 031: Health Education	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course educates students about healthy choices and teaches them how to put those choices into practice in their daily lives.
CR READ-033-S002	CR READ 033: Reading Comprehension, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This reading comprehension course covers important pre-, during-, and after-reading techniques; it also includes a look at some of the most common feelings that are found in books and people. Students will read about pure happiness in Charlie and the Chocolate Factory, loneliness in The Wizard of Oz, utter surprise in Harry Potter and the Goblet of Fire, love in The Adventures of Tom Sawyer, and much, much more as they explore 30 excerpts from great literature while learning about reading techniques. This is the first course in a two-part Reading Comprehension series (READ 033 and READ 035).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR READ-035-S002	CR READ 035: Reading Comprehension: Understanding Literature, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this reading comprehension course, students will learn more during-reading techniques; those who liked the first course in this series will love this follow-up course that focuses even more on feelings portrayed through literature. They can join in the fun and read amazing fiction in The Adventures of Pinocchio, the magical tales of Harry Potter and his friends, a story of true bravery in Alice in Wonderland, and much, much more. Students will explore excerpts from Newbery Award-winning books and classic literature while focusing on reading techniques. This is the second course in a two-part Reading Comprehension series (READ 033 and READ 035).
CR SOCST-033-S002	CR SOCST 033: Survey Of World History, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course will compare historical and cultural events in Europe with the same type of events in the Americas (North, Central, and South) during the same time period; highlights include in-depth discussions on medieval Europe, the Renaissance, the Aztecs, the Incas, and the colonial efforts in North America. This is the first course in a two-part World History series for grades seven and eight (SOCST 033 and SOCST 034); however, either course may be taken independently of the other.
CR SOCST-034-S002	CR SOCST 034: Survey Of World History, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course will compare historical and cultural events in Europe with the same types of events in the Americas during the same time period; highlights include in-depth discussions on the Constitution of the United States of America, the Revolutionary War, the French Revolution, and an examination of the Thirteen Colonies. This is the second course in a two-part World History series for grades seven and eight (SOCST 033 and SOCST 034); however, either course may be taken independently of the other.
CR SOCST-035-S002	CR SOCST 035: United States History, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is a survey course emphasizing 18th-century and 19th-century historical events from the age of exploration through the American Revolution; topics will include historical events such as the colonization of America and the Revolutionary War. This is the first course in a four-part United States History series for grades seven and eight (SOCST 035, SOCST 036, SOCST 037, and SOCST 038); however, any of these courses may be taken independently of the others.
CR SOCST-036-S002	CR SOCST 036: United States History, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is a survey course of United States history covering the Constitutional Convention to the Civil War and Reconstruction. This is the second course in a four-part United States History series for grades seven and eight (SOCST 035, SOCST 036, SOCST 037, and SOCST 038); however, any of these courses may be taken independently of the others.
CR SOCST-037-S002	CR SOCST 037: United States History, Part 3	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is a survey course of United States history from the Wild West to the Roaring Twenties; it covers the history of immigration, politics and the rise of big business, the Progressive Era, and World War I. This is the third course in a four-part United States History series for grades seven and eight (SOCST 035, SOCST 036, SOCST 037, and SOCST 038); however, any of these courses may be taken independently of the others.
CR SOCST-038-S002	CR SOCST 038: United States History, Part 4	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is a survey course of United States history from the Great Depression through recent American history. This is the fourth course in a four-part United States History series for grades seven and eight (SOCST 035, SOCST 036, SOCST 037, and SOCST 038); however, any of these courses may be taken independently of the others.
CR ALG-041-S002	CR ALG 041: Pre-Algebra, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn how to work with fundamental mathematical functions with integers, fractions, and decimals; use the order of operations to evaluate variable expressions; solve variable equations using transformations; translate word sentences into mathematical equations; and solve world problems. This is the first course in a two-part Pre-Algebra series (ALG 041 and ALG 043).
CR ALG-043-S002	CR ALG 043: Pre-Algebra, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course includes using ratios, rates, and proportions to solve problems; changing fractions, percents, and decimals; and solving problems involving percentages such as discounts, markups, commissions, profit, simple and compound interest, etc. This is the second course in a two-part Pre-Algebra series (ALG 041 and ALG 043).
CR ALG-051-S003	CR ALG 051: Algebra 1, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of the properties of sets of real numbers, linear equations, linear functions and inequalities; contains lessons that teach students how to solve problems using algebra, geometry, radical expressions, and equations; and covers graphing, algebraic equations, and systems of equations and inequalities. This is the first course in a two-part Algebra 1 series (ALG 051 and ALG 053).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR ALG-053-S003	CR ALG 053: Algebra 1, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of linear relations and functions, systems of equations and inequalities, exponents and powers, rational functions, quadratic functions, polynomial functions other than quadratics, and sequences and series. This is the second course in a two-part Algebra 1 series (ALG 051 and ALG 053).
CR ALG-055-S003	CR ALG 055: Algebra 2, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of equations and inequalities, linear relations and functions, systems of equations and inequalities, matrices, polynomials, radical expressions, and quadratic equations. This is the first course in a two-part Algebra 2 series (ALG 055 and ALG 057). This course also encompasses the Common Core content.
CR ALG-057-S003	CR ALG 057: Algebra 2, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of conics, polynomial functions, rational functions, rational polynomial expressions, exponential and logarithmic functions, sequences and series, probability and statistics, and trigonometric functions. This is the second course in a two-part Algebra 2 series (ALG 055 and ALG 057). This course also encompasses Common Core content.
CR BIOL-041-S002	CR BIOL 041: Biology, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	After learning about the scientific method, students will study life at its most basic level, the cell. Students will then use the cell as a foundation for understanding how life evolves, including a detailed discussion of DNA, genetics, and evolution. Each lesson in this course includes an interview with a professional in a career related to biology. Two thousand years ago most people agreed that life, death, sickness, and health were the result of fickle gods. Today we know a little more about the principles behind life and seek to learn more through the study of biology. This is the first course in a two-part Biology series (BIOL 041 and BIOL 043).
CR BIOL-043-S002	CR BIOL 043: Biology, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will continue studying life, but with a progressively wider lens by discovering the variety of life that has evolved, determining how to categorize different living things, and comparing how these living things interact with their environment. This is the second course in a two-part Biology series (BIOL 041 and BIOL 043).
CR BIOL-049-S002	CR BIOL 049: Human Anatomy	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	The question, "How does the human body do what it does?" is answered in Human Anatomy through an in-depth study of systems in the human body, including the digestive, respiratory, immune, circulatory, and reproductive systems.
CR BMATH-041-S002	CR BMATH 041: Business and Consumer Math, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn practical applications of mathematical skills such as buying a car, home, and insurance; budgeting; bank services; and savings and investing. This is the first course in a two-part Business and Consumer Math series (BMATH 041 and BMATH 043).
CR BMATH-043-S002	CR BMATH 043: Business and Consumer Math, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course includes taxes, math in the workplace, statistics, probability, measurement, manufacturing, insurance, and supplying services. This is the second course in a two-part Business and Consumer Math series (BMATH 041 and BMATH 043).
CR CHEM-041-S002	CR CHEM 041: Chemistry, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is an introductory chemistry course that includes topics such as matter and energy, the atomic theory, electron clouds and probability, the periodic table, chemical bonding, chemical formulas, and balancing equations. This course has few mathematical computations and includes several virtual lab demonstrations. This is the first half of a two-part General Chemistry series (CHEM 041 and CHEM 043).
CR CHEM-043-S002	CR CHEM 043: Chemistry, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a continuation of introductory chemistry and includes topics such as moles, states of matter, behaviors of gases, solutions, reaction rates, chemical equilibriums, solubility, acids and bases, oxidation-reduction reactions, electrochemistry, and nuclear chemistry. This course has few mathematical computations and includes several virtual lab demonstrations. This is the second half in a two-part General Chemistry series (CHEM 041 and CHEM 043).
CR EARTH-041-S002	CR EARTH 041: Earth Science, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn about the science behind recent natural disasters involving hurricanes, earthquakes, and tsunamis. Students will also learn about the structure of our atmosphere and how it makes life on earth possible. This is the first course in a two-part Earth Science series (EARTH 041 and EARTH 043).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR EARTH-043-S002	CR EARTH 043: Earth Science, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of natural and manmade systems of the universe, including the solar, energy, atmospheric, and biological systems. This is the second course in a two-part Earth Science series (EARTH 041 and EARTH 043).
CR EARTH-051-S002	CR EARTH 051: Astronomy	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this non-mathematical look at astronomy, students will learn what people have traditionally thought about space and how scientists currently study it.
CR EARTH-055-S002	CR EARTH 055: Meteorology	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In Meteorology, students will learn how severe weather conditions like hurricanes, tornadoes, and thunderstorms develop. In this nonmathematical look at meteorology, students will also learn why the earth has seasons and how water in the atmosphere affects weather.
CR ECON-041-T003	CR ECON 041: Economics	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course focuses on the study of economic problems and the methods by which societies solve them. It examines the characteristics of the market economy of the United States and its function in the world. It helps students develop opinions based on economic principles and provides opportunities to share those opinions with their peers as they discuss current events.
CR ENGL-041-T001	CR ENGL 041: Ninth-Grade English, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn effective strategies for reading fiction, nonfiction, and poetry; students will also explore and implement elements of effective writing. Writing assignments include a learning journal, a photo essay, a personal narrative, and a process paper. Students will learn new vocabulary and review grammatical concepts. This is the first course in a two-part Ninth-Grade English series (ENGL 041 and ENGL 043). This course also encompasses Common Core content.
CR ENGL-043-T001	CR ENGL 043: Ninth-Grade English, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course incorporates reading, writing, speaking strategies, vocabulary, Internet research skills, essay and speech writing, and reading texts from various genres; students will also have the opportunity to use instructional multimedia and video interviews. This is the second course in a two-part Ninth-Grade English series (ENGL 041 and ENGL 043). This course also encompasses Common Core content.
CR ENGL-045-T001	CR ENGL 045: Tenth-Grade English, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	Students will develop new perspectives through interpreting literature, expanding vocabulary, and writing creatively; students will also enhance their writing skills by examining point of view, character development, figurative language, and audience. This course is highly interactive and includes a live course orientation, weekly webinars with the course instructor, and reviews with the course TA. This is the first course in a two-part Tenth-Grade English series (ENGL 045 and ENGL 047). This course also encompasses Common Core content.
CR ENGL-047-T001	CR ENGL 047: Tenth-Grade English, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course offers a myriad of reading and writing activities that are designed to strengthen students' background knowledge in the genres of poetry, short story, myth, nonfiction, and novel. This is the second course in a two-part, Tenth-Grade English series (ENGL 045 and ENGL 047). This course also encompasses Common Core content.
CR ENGL-051-T001	CR ENGL 051: Eleventh-Grade English, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is a rigorous eleventh-grade English course in which students will study American literature. They will be studying selections from <i>The Crucible</i> , reading the novel <i>To Kill a Mockingbird</i> , writing a research book report, and completing writing assignments that contrast historical and fictitious events described in literature. Students will also be studying Latin and Greek terms, developing their vocabulary, and enhancing their writing skills. This is the first course in a two-part Eleventh-Grade English series (ENGL 051 and ENGL 053). This course also encompasses Common Core content.
CR ENGL-053-T001	CR ENGL 053: Eleventh-Grade English, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This English course is a continuation of Eleventh-Grade English, Part 1 and contains a reading emphasis on literary, functional, and informational selections. A research report with an outline, works cited, and in-text documentation will be required. This course also includes analyses, original stories, and poems. Students will develop their writing style to improve effectiveness, clarity, and variety. This is the second course in a two-part Eleventh-Grade English series (ENGL 051 and ENGL 053). This course also encompasses Common Core content.
CR ENGL-055-T001	CR ENGL 055: Twelfth-Grade English, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	Students will develop a basic understanding of poetry as they analyze and isolate figures of speech, enhance their writing skills as several different rhetorical modes are practiced, and enlarge their vocabulary while becoming more proficient at punctuation. This is the first course in a two-part Twelfth-Grade English series (ENGL 055 and ENGL 057). This course also encompasses the Common Core State Standards.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR ENGL-057-T001	CR ENGL 057: Twelfth-Grade English, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	Students will gain a basic understanding of rhetoric as they become more proficient in their writing, enlarge their vocabulary, and recognize how to skillfully approach poetry. Students will also learn to assess writing more effectively by using the Six Traits Analytical Model Writing Assessment. This is the second course in a two-part Twelfth-Grade English series (ENGL 055 and ENGL 057). This course also encompasses the Common Core State Standards.
CR ENVRN-041-S002	CR ENVRN 041: Environmental Science	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	Students in Environmental Science will learn about the fundamentals of ecology: rocks, minerals, and soil; biomes; surface water and oceans; and earth and energy resources and human impact on these resources.
CR GEOG-041-S002	CR GEOG 041: World Geography	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course explores each of the elements of the 18 National Geography Standards, which are outlined by the National Council for Geographic Education. While examining the physical and human forces that shape our world, students will use geography tools, including maps and graphs, to analyze and consider the ways resources are used, and investigate advancements in technology that affect the way we live.
CR GEOM-041-S003	CR GEOM 041: Plane Geometry, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of segments and angles, mathematical reasoning, parallel lines, triangles, polygons, quadrilaterals, and similarity. This is the first course in a two-part Geometry series (GEOM 041 and GEOM 043). This course also encompasses Common Core content.
CR GEOM-043-S003	CR GEOM 043: Geometry, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of perimeter and area, right triangle trigonometry, properties of circles, calculations for circles, coordinate geometry, geometric solids, and probability and statistics. This is the second course in a two-part Geometry series (GEOM 041 and GEOM 043). This course also encompasses Common Core content.
CR GOVT-041-T003	CR GOVT 041: American Government, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers the fundamentals of government and citizenship and focuses on the major ideas, protections, privileges, structures, and economic systems that affect the life of a citizen in the United States political system.
CR GOVT-043-S003	CR GOVT 043: American Government, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course examines American government, including the Constitution, Bill of Rights, Founding Fathers, the American presidency, legislative and judicial branches, the American Dream and free enterprise, freedom of the press, national and local security, immigration, and citizenship. It also provides application activities in each area.
CR GOVT-045-T002	CR GOVT 045: United States Government and Citizenship	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course fulfills the California state standards for Principles of American Democracy by covering the fundamentals of government and citizenship and focusing on the major ideas, protections, privileges, structures, and economic systems that affect the life of a citizen in the United States political system.
CR HIST-041-200	CR HIST 041: United States History to 1850	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is the fascinating story of people, events, and ideas that shaped the early United States and why these concepts matter now. This is the first course in a two-part United States History series (HIST 041 and HIST 043).
CR HIST-043-200	CR HIST 043: United States History from 1851	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This survey course emphasizes the growth and development of the United States from 1851 to the present. During the course, students will make personal connections with specific events and individuals in US history while developing an understanding of democratic values. Each lesson includes an instructor-graded portfolio activity, which should be submitted together as a whole before requesting the final. This is the second course in a two-part United States History series (HIST 041 and HIST 043).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR HIST-051-S002	CR HIST 051: Northwest History	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	The history of the northwestern United States is shaped by an understanding of geography: the physical features and processes of the area; the people who have inhabited the area: the Native Americans, explorers, traders, and missionaries; and the events: exploration, immigration, wars, treaties, railroads, and the emergence of the United States. The 20th century continued to shape the Northwest through growth of industry, immigration, and statehood.
CR HIST-054-S002	CR HIST 054: New Mexico State History	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This New Mexico history course enables students to gain a deeper appreciation for and understanding of the history of the great state of New Mexico. It is designed to cover all of the core standard requirements for students as prescribed by the state of New Mexico.
CR HIST-057-S002	CR HIST 057: History of the American West	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers the role of the West in the development of the United States. The discussion begins with exploration and colonization; moves to Texas and Oregon, the mining frontier, the cowboy, the farming frontier, and the impact of the military; and concludes with the continuing challenges of the American West. The course also explores the geography and the people that live there.
CR HIST-062-S001	CR HIST 062: World History: Eastern Hemisphere	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	Students will explore the major historical events, personalities, and cultures of three groups in the Eastern Hemisphere: Africa, the Middle East, and Asia. Each region will be addressed within the framework of early history, more recent history, and present-day circumstances. This is the first course in a two-part World History series (HIST 062 and HIST 064); however, each course may be taken independently.
CR HIST-064-S001	CR HIST 064: World History: Western Hemisphere	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course takes a closer look at the history of the Americas, particularly Latin America. The discussion begins with pre-European America, the conquest of the Aztec and Incan empires, the colonization of Latin America by Spain, and the Latin American independence movement, and concludes with an examination of the issues facing Latin America today. Included in the discussion are the influences the American Revolutionary War, the French Revolution, and the Industrial Revolution had on Latin America. Finally, the course examines World War I and World War II. This is the second course in a three-part World History series (HIST 062, HIST 064, and HIST 065); however, any of these courses may be taken independently of the others.
CR HIST-065-S002	CR HIST 065: World History: Europe and Russia	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course examines the history of Europe through a discussion of change that begins with medieval Europe; moves to the Renaissance, the Reformation, the rise of monarchs, the Enlightenment, the Industrial Revolution, the influence of nationalism on Europe, and the rise of totalitarian governments; and concludes with a discussion of Europe today. The course asks students to decide whether the changes were for the best. This is the third course in a three-part World History series (HIST 061, HIST 063, and HIST 065); however, any of these courses may be taken independently of the others.
CR HIST-066-S002	CR HIST 066: World Civilizations	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is an overview of the increasing interrelationships of the world's peoples from early and classical civilizations, the Age of Discovery, and early modern and contemporary societies through the 20th century.
CR HLTH-041-S004	CR HLTH 041: Health Education, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers developing a healthy self, substance-abuse prevention, human development, relationships, disease prevention, HIV/AIDS education, CPR and safety, consumer health, injury/violence prevention, nutrition, fitness, and community health.
CR HLTH-042-S002	CR HLTH 042: Health Education, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers developing healthy sun exposure habits, acquiring knowledge and skills to practice healthy habits that prevent and/or control disease, learning positive tactics to avoid drug use, and learning healthy eating strategies. This is the second course in a two-part Health Education series (HLTH 041 and HLTH 042) for students needing a full year of health education credit.
CR HLTH-043-S002	CR HLTH 043: Eating Disorders and Basic Nutrition	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers eating disorders such as anorexia and bulimia, various weight-related diseases, and principles of proper nutrition and physical activity. It also compares optimum weight and nutrition to eating disorders.
CR HLTH-045-S002	CR HLTH 045: Drug Use and Abuse	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course helps students understand why people use drugs, how they use them, and what types of drugs are commonly abused. Because drugs can affect all of us, Drug Use and Abuse raises awareness about drug use and abuse.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR LIT-045-S002	CR LIT 045: Understanding Literature	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	Understanding Literature will assist students in reading, analyzing, and interpreting short stories, poetry, novels, and plays for content, thematic meaning, and personal relevance.
CR LIT-047-S002	CR LIT 047: Advanced Literature Comprehension	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course provides an exploration of proven masters in major genres, including epic poetry, short story, drama, and the novel. Major themes include love of self, of others, and of principle.
CR LIT-061-S002	CR LIT 061: Science Fiction Literature	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course evaluates the future through science fiction; it looks at the best and worst future possibilities if present trends in society and present human traits continue.
CR MATH-047-200	CR MATH 047: Applied Math, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course includes learning to use mathematics to solve problems on the job; learning to use a calculator; estimating; measuring; using graphs, charts, and tables; and working with data, lines, and angles. This course features a math lab, where extra practice and instruction are given in an interactive lab setting. This is the first course in a two-part Applied Math series (MATH 047 and MATH 049).
CR MATH-049-200	CR MATH 049: Applied Math, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	Continuing from the concepts learned in Applied Math, Part 1 (MATH 047), this course covers mathematics applied to the real world; it includes two- and three-dimensional shapes, ratios and proportions, scale drawings, signed numbers and vectors, as well as scientific notations, powers, and roots. This course features a math lab, where extra practice and instruction are given in an interactive lab setting. This is the second course in a two-part Applied Math series (MATH 047 and MATH 049).
CR MATH-051-T003	CR MATH 051: Secondary Mathematics I, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of sets of real numbers, linear equations and graphs, linear functions, systems of equations and inequalities, segments and angles, mathematical reasoning, parallel lines, and sequences and series. This is the first course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
CR MATH-052-T003	CR MATH 052: Secondary Mathematics I, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of linear relations and functions, systems of equations and inequalities, triangles, similarity, coordinate geometry, exponents and powers, and quadratic functions. This is the second course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
CR MATH-053-T003	CR MATH 053: Secondary Mathematics II, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of linear relations and functions, exponents and powers, triangles, polygons, quadrilaterals, similarity, radical expressions, quadratic functions and equations, and perimeter and area. MATH 053 is the third course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
CR MATH-054-T003	CR MATH 054: Secondary Mathematics II, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of quadratic equations, polynomial functions, right triangle trigonometry, circles, conics, probability and statistics, and geometric solids. This is the fourth course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
CR MATH-055-T003	CR MATH 055: Secondary Mathematics III, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of inequalities, problems solved using algebraic and geometric concepts, radical expressions and simple radical equations, equations and inequalities, linear relations and functions, polynomial functions, rational functions, systems of equations and inequalities, and matrices. This is the fifth course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR MATH-056-T003	CR MATH 056: Secondary Mathematics III, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of coordinate geometry, geometric solids, conics, polynomial functions, rational polynomial expressions, quadratic equations, exponential and logarithmic functions, sequences and series, probability and statistics, and trigonometric functions. This is the sixth course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
CR PHSCS-041-S002	CR PHSCS 041: Physics, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This physics course is a mathematical treatment of motion and inertia, Newton's laws, momentum and energy, circular motion and gravitation, gravitational interactions and satellites, etc. This course includes instructions for lab activities that can be completed with commonly available equipment. This is the first course in a two-part Physics series (PHSCS 041 and PHSCS 043).
CR PHSCS-043-S002	CR PHSCS 043: Physics, Part 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This physics course is a mathematical treatment of change of state, thermodynamics, wave and sound, light and color, lenses, electric charges and fields, current and circuits, satellites, magnetism, nuclear reaction, etc. This course includes instructions for lab activities that can be completed with commonly available equipment. This is the second course in a two-part Physics series (PHSCS 041 and PHSCS 043).
CR PHYS-041-S002	CR PHYS 041: Physical Science	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this introductory course, students will learn to apply basic concepts of physical science in exploring, experimenting with, and solving problems.
CR READ-041-S002	CR READ 041: Speed Reading	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course teaches skills for effectively increasing reading speed and comprehension.
CR READ-045-S002	CR READ 045: Reading Comprehension	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course will identify important strategies to assist students in understanding and remembering what they have read. It will help students improve their reading speed and comprehension through carefully designed exercises. Fluency and vocabulary will be included with comprehensive skills.
CR READ-049-S002	CR READ 049: Recreational Reading	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is all about giving students the tools to become better readers and more appreciative of good books; this will help them understand the joy that comes from recreational reading. Ralph Waldo Emerson said, "Tis the good reader that makes the good book." Students will learn reading strategies that will not only help them become better readers, but will also help students enjoy reading even more.
CR READ-051-S002	CR READ 051: Reading around the World	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This reading course takes students on a literary journey around the world by reading the adventures of Harry Potter, Gandhi's words of wisdom, Chilean folk tales, and much more while learning about important pre-, during-, and after-reading techniques.
CR SOCSC-041-S002	CR SOCSC 041: Current Events	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course investigates what is happening in the world today, including significant events, behind-the-scenes causes, who's who, and future trends. It teaches students how to effectively gather accurate information by studying primary sources.
CR SOCSC-051-S002	CR SOCSC 051: Sociology	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of the way groups act and think as a result of socialization. It also focuses on students' roles in society and how they can personally make a difference.
CR SOCSC-055-S002	CR SOCSC 055: Psychology	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course explores the basic theories and principles of psychology. It guides students to a better understanding of the self. Students will also study consciousness and adolescent development, as well as traditional topics such as behaviorism, personality, learning, and social psychology.
CR TRIG-041-T002	CR TRIG 041: Trigonometry, Part 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course focuses on trigonometric principles as an extension of algebraic and geometrical concepts. Students will study angles, arcs, the unit circle, right triangle trigonometry, the six trig functions, inverse functions, fundamental trig identities, verifying trig identities, solving trig equations, the law of sines, the law of cosines, vectors, complex numbers, and polar coordinates.
CR WRIT-041-S002	CR WRIT 041: English Usage	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is an introductory English course designed to create a full foundation for the English language by focusing on the basics of grammar, such as parts of speech, types of sentences, and commonly misused words. This course prepares students to read and write within the conventions of English.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CR WRIT-043-S002	CR WRIT 043: Technical Writing	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is designed to help students write to convey information clearly, concisely, and accurately; to experience comprehensive editing and copyediting; and to write instructions and memos. This course will also help students improve their writing style.
CR WRIT-045-S002	CR WRIT 045: Creative Writing	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course guides students in writing fiction by learning and using the elements of creative writing: plot, character development, dialogue, description, scene, transition, and point of view. Two short stories are required.
CR WRIT-047-S002	CR WRIT 047: Writing Poetry	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course is designed to improve and enhance students' own poetic skills by teaching them how poets use the language devices of sound, sensory images, figurative expressions, and musical rhythms to share their insights through word-art. Throughout the course, students will experiment with traditional formats and with many free-verse styles of poetry.
CR WRIT-049-S002	CR WRIT 049: Journalism	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn the fundamentals of modern journalism: reporting, interviewing, writing techniques, censorship issues, page design, and broadcast journalism. A portfolio folder is required. 1. What Exactly Is News? 2. Who Is in the News? 3. Where Do I Start? 4. When It All Flows Together 5. How the Stories are Different 6. Why Do I Have to Paste Up the Dummy? 7. Broadcast Journalism 8. Where Do We Go from Here?
CR INFOP-041-S003	CR INFOP 041: Keyboarding	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course will guide students through attaining proficiency in touch typing and word processor formatting skills. In an increasingly digital world, the ability to quickly and accurately type and create well formatted documents will prove to be invaluable and advantageous in completing school work, communicating professionally, and pursuing personal education and career goals.
CR CS-041-T001	CR CS 041: Computer Science 1	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is an introductory semester course in computer programming/software engineering and applications. The course introduces students to the fundamentals of computer programming. Students will learn to design, code, and test their own programs. The course will introduce basic programming concepts to beginning students through the Python programming language, preparing them for the second semester where they will learn object-oriented programming skills in an Internet environment.
CR CS-043-T001	CR CS 043: Computer Science 2	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This is the continuation of CS041 and builds upon the concepts and skills students acquired in the first course. The main focus in this course is programming for the internet. Most modern web applications are built on three interacting building blocks: (1) Client programs that run locally in the user's web browser, (2) server programs that run on machines in data centers, and (3) databases for information storage. In this course students will learn how to write client and server code, and become familiar with database usage to build simple web applications. It is not the goal of this course to teach how to build graphically attractive web programs but rather to teach the mechanics underpinning modern web applications.
CR CTECH-041-S002	CR CTECH 041: Computer Technology	Credit Recovery	No Textbook	On Grade Reading Level	Buzz	0.5	This course provides an introduction to computer application software. Students will learn to create documents, spreadsheets, and presentations using Microsoft Office 2013. The basics of operating systems and the use of email are also covered.
Alaska Studies	Alaska Studies	Credit Recovery	Two Textbooks	At Grade Reading Level	Canvas	0.5	This course is designed to meet the state requirement of one-half unit of credit in Alaska history or demonstration that the students meet the Alaska history performance standards. Alaska Studies first quarter covers the physical geography of Alaska followed by the people of Alaska. The second quarter is a more in-depth look into the Alaska's five regions and their unique cultures.
ENGL-035-S003	ENGL 035: Eighth-Grade English, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In a world of words, students will learn how to put words together naturally, express themselves confidently, and explore the world of reading and writing through study and practice. Fifteen hours of reading of nonfiction texts will be required in addition to the course novel. This is the first course in a two-part Eighth-Grade English series (ENGL 035 and ENGL 037).
ENGL-031-S003	ENGL 031: Seventh-Grade English, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn to identify themes in literature, analyze techniques in poetry, recite a poem using effective presentation skills, compare selected genres in literature, read and interpret Shakespearean sonnets and excerpts from a play, compose a well-supported research paper, apply reading and writing strategies to a novel, and expand and enrich their vocabulary by applying word-mastery strategies. This is the first course in a two-part Seventh-Grade English series (ENGL 031 and ENGL 033).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
ENGL-033-S003	ENGL 033: Seventh-Grade English, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn to identify themes in literature, analyze techniques in poetry, recite a poem using effective presentation skills, compare selected genres in literature, read and interpret Shakespearean sonnets and excerpts from a play, compose a well-supported research paper, apply reading and writing strategies to a novel, and expand and enrich their vocabulary by applying word-mastery strategies. This is the second course in a two-part Seventh-Grade English series (ENGL 031 and ENGL 033).
ENGL-037-S003	ENGL 037: Eighth-Grade English, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course will enhance students' vocabulary, writing strategies, argumentative and persuasive techniques in writing and speaking, and ability to analyze literature and media. Students will also be able to identify the elements of the research process and incorporate them into their own research papers. This is the second course in a two-part Eighth-Grade English series (ENGL 035 and ENGL 037).
GSCI-031-S003	GSCI 031: Seventh-Grade Science, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This introductory integrated science course focuses on matter and its organization, cells and the basic building blocks of life, and the basic structure and function of living things. This is the first course in a two-part Seventh-Grade Science series (GSCI 031 and GSCI 033); however, either course may be taken independently of the other.
GSCI-031-S003	GSCI 031: Seventh-Grade Science, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This introductory integrated science course focuses on matter and its organization, cells and the basic building blocks of life, and the basic structure and function of living things. This is the first course in a two-part Seventh-Grade Science series (GSCI 031 and GSCI 033); however, either course may be taken independently of the other.
GSCI-035-S003	GSCI 035: Eighth-Grade Science, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this introduction to integrated physics and chemistry, students will begin their study of the natural world by looking at its smallest parts, atoms; the course will then focus on how objects interact, including discussions of energy, motion, and force. Students will apply the concepts of force, motion, and work in a hands-on, simple-machines lesson. This is the first course in a two-part Eighth-Grade Science series (GSCI 035 and GSCI 037).
GSCI-037-S003	GSCI 037: Eighth-Grade Science, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will look at the systems that shape the earth, including plate tectonics, the rock cycle, erosion, and the atmosphere. This is the second course in a two-part Eighth-Grade Science series (GSCI 035 and GSCI 037).
MATH-031-S003	MATH 031: Seventh-Grade Mathematics, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn to represent data with different graphs and plots, find measures of central tendency, produce probabilities, and use estimation and problem-solving skills; this course also covers basic geometric concepts such as solving problems with line segments and types of polygons, performing operations with decimals, finding factors and multiples of numbers, and finding areas and perimeters of different polygons. This is the first course in a two-part Seventh-Grade Mathematics series (MATH 031 and MATH 033).
MATH-033-S003	MATH 033: Seventh-Grade Mathematics, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn about performing operations with fractions and working with ratios, proportions, and percents; this course also includes finding different types of probabilities, performing operations with integers, and using algebraic properties and the order of operations to simplify expressions as well as solving one-step equations. This is the second course in a two-part seventh-grade mathematics series (MATH 031 and MATH 033).
MATH-035-S002	MATH 035: Eighth-Grade Mathematics, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Eighth-grade math continues the coverage of basic math concepts that began with the seventh-grade math courses. Students will learn equation concepts, linear equations, systems of equations, functions, exponents, and the number system. Students will also explore real-world applications of different methods. This is the first course in a two-part Eighth-Grade Mathematics series (MATH 035 and MATH 037). This course also encompasses Common Core content.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
MATH-037-S001	MATH 037: Eighth-Grade Mathematics, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Eighth-grade math continues the coverage of basic math concepts that began with the seventh-grade math courses. MATH 037 covers the second half of the eighth-grade content. We will study topics such as analyzing triangles and the distance between points, finding the measure of angles formed by a transversal and polygons, using different transformations to move figures on a coordinate plane, determining if figures are similar or congruent using transformations, finding the volume and missing measures of various shapes (cylinders, cones, hemispheres, spheres, and composite figures), and interpreting two-way tables and scatter plots with trend lines.
ACC-041-S002	ACC 041: Accounting	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course will provide students with a basic understanding of what accounting is and the necessary skills and ability to learn more. By the end of this course, they will have learned how to record basic business transactions, post journal entries, prepare financial statements, and perform other accounting tasks.
AEROB-045-S002	AEROB 045: Aerobics	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn correct techniques for weight training and flexibility, guidelines for cardiovascular exercise, and methods for diet improvement, along with proper dance and step aerobic techniques. Students must engage in a 12-week fitness program to receive credit.
ART-041-S002	ART 041: Art Foundations, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This art course consists of four main art disciplines: history, production, criticism, and aesthetics. Each discipline is distinctly different, allowing students to gain a comprehensive art foundation. This course chronologically covers movements beginning with prehistoric art and ending with baroque art. With each movement, students are given a historical context as well as an opportunity to learn and develop various art skills. Art Foundations, Part 1 also teaches students how to formally judge art and answer questions concerning the nature of art. This is the first course in a two-part art series (ART 041 and ART 043); however, either course may be taken independently of the other.
ART-043-S002	ART 043: Art Foundations, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers art basics such as criticism, studio techniques, elements and principles, aesthetics, and history from the beginning of the 20th century to the present. This is the second course in a two-part art series (ART 041 and ART 043); however, either course may be taken independently of the other.
ART-045-S002	ART 045: Drawing	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This art course is an introduction to the fundamentals of drawing and focuses on the elements and principles of art, linear perspective, proportion, and composition.
ART-051-S002	ART 051: Calligraphy	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is an introduction to basic calligraphy skills; students will learn four letter styles: sans serif B-point, Celtic, Gothic, and italic.
ART-059-S002	ART 059: Introduction to Commercial Art	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This commercial art course teaches the introductory elements of graphic design, the concept of simplification, and the history and function of typography. Students will also apply principles and elements of design, employ principles and concepts of advertising, and use a computer to research, create, or manipulate images.
ART-061-S002	ART 061: Digital Photography	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is an introduction to digital photography and teaches students effective camera and editing software use, artistic design, processing and careers, with a brief history of photography.
ASL-041-T003	ASL 041: First-Year ASL, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this American Sign Language course, students will learn the basics of language, be taught simple conversations; and cover topics such as numbers, feelings, yes and no questions, facial expressions, cultural aspects, and more. This course features new interactive elements: live one-on-one signing appointments, a student discussion board, and an instructor-hosted wiki. This course features new interactive elements: live instructor-led orientations and weekly lesson review activities, live one-on-one signing appointments, a student discussion board, and an instructor-hosted wiki. There is a strong emphasis on learning to sign more fluently. This is the first course in a four-part ASL series (ASL 041, ASL 043, ASL 051, and ASL 053).
ASL-043-T003	ASL 043: First-Year ASL, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn how to create ASL sentence structures that can be used to form conversational sentences, over 200 new signs, and cultural insights into the Deaf community. This course features interactive elements: live weekly review activities, live one-on-one signing appointments, a student discussion board, and an instructor-hosted wiki. This is the second course in a four-part ASL series (ASL 041, 043, 051, 053) and is a continuation of ASL 041 (American Sign Language, Part 1).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
ASL-051-T002-002	ASL 051: Second-Year ASL, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This American Sign Language course introduces over 200 new signs, with dialogs in each unit touching upon the motivation for learning ASL, occupations, ordering food in a restaurant, and shopping. It illustrates more ways in which a variety of ASL sentence structures can be used to form conversational sentences. It also includes cultural insights into the lives of people in the Deaf community, including topics such as the different meanings of ASL signs, facial expressions, and body movement. This course features new interactive elements: live one-on-one signing appointments, a student discussion board, and an instructor-hosted wiki. There is a strong emphasis on learning to sign more fluently. This is the third course in a four-part ASL series (ASL 041, ASL 043, ASL 051, and ASL 053).
ASL-053-T002	ASL 053: Second-Year ASL, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This American Sign Language course introduces over 200 new signs, with topics including conversations that take place around the house and school, discussions about the weather and sports, and linguistic features such as classifiers. Further Deaf cultural insights are presented in each unit, including various use of the directional verb-signs and the importance of eye movement. This course features new interactive elements: live one-on-one signing appointments, a student discussion board, and an instructor-hosted wiki. There is a strong emphasis on learning to sign more fluently. This is the fourth course in a four-part ASL series (ASL 041, ASL 043, ASL 051, and ASL 053).
AUTO-043-S002	AUTO 043: Automotive Basics	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This automotive course teaches students to perform basic auto maintenance and repair tasks on their own, such as fixing flat tires, changing oil, and maintaining a vehicle. A practical approach for saving money and time, this course also gives students the confidence to discuss complex auto problems with a mechanic.
BCOM-041-T002	BCOM-041: Business Communications	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This business communications course explores strategies and skills needed to become an effective written and verbal communicator. Skills taught in this course are especially helpful in workplace communication, but are applicable to communication outside of work.
BLAW-041-S002	BLAW 041: Business Law	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In Business Law, students will gain an understanding of the law as it relates to them currently, as well as the implications of the law in their future lives, the lives of their families, and the lives of their friends.
BMRKT-041-S002	BMRKT 041: Marketing	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course will help students gain a working knowledge of marketing and distribution, including marketing careers, marketing functions, market segmentation, and channels of distribution.
BOWL-041-S002	BOWL 041: Bowling	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	At the conclusion of this course, students should attain an advanced-beginner skill level by learning the correct approach, delivery, and scoring techniques in bowling. This is a fun but demanding course that will require you to follow directions carefully for all your lessons. Access to a bowling alley and appropriate equipment is required. Students must submit scorecards from 15 games to receive credit.
CHILD-041-S002	CHILD 041: Child Development, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Child Development, Part 1 is an introductory course in child development that begins with theories of child development, then proceeds to trace development from pregnancy to infancy. Children do not come with a manual, but this course will help anyone who plans to be a parent or care for a child. This course also includes a discussion of heredity and parenting skills. This is the first course in a two-part Child Development series (CHILD 041 and CHILD 043).
CHILD-043-S002	CHILD 043: Child Development, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this second part of the series, students will learn how children develop from birth to adolescence, including parenting methods; childhood illnesses; children with different physical, emotional, and intellectual abilities; and child abuse. Children do not come with a manual, but this course will help anyone who plans to be a parent or care for a child. This is the second course in a two-part Child Development series (CHILD 041 and CHILD 043).
CHILD-051-S002	CHILD 051: Preparing for Responsible Parenthood	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Preparing for Responsible Parenthood takes students through the basic roles of parenting, including practical knowledge for discipline; teaching values; communicating with children; and creating a nurturing, stress-free home environment.
CLOTH-041-S002	CLOTH 041: Clothing Construction	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course introduces students to the basic principles and skills required to sew, including design concepts, selecting and preparing patterns, operating sewing equipment, and completing sewing projects. Students in this course will submit portfolio assignments to the instructor for a grade.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CLOTH-047-S002	CLOTH 047: Clothing Fashion Fundamentals	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Clothing Fashion Fundamentals includes a history of fashion, surveys current fashion designers, and introduces students to careers in clothing and fashion design. Students who take this course will also learn how to apply the fundamentals of fashion to their own wardrobe.
COMMS-051-S002	COMMS 051: Public Speaking	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is an introduction to public speaking. It is media intensive and filled with several speeches and examples of various stages of speech development.
FIT-041-S003	FIT-041: Fitness For Living Well	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is designed to lay a foundation to help students live a healthy lifestyle. Selected scientifically based wellness principles will enable students to choose positive attitudes toward their whole selves and others, to live a physically active lifestyle, to eat wisely, to realize the importance of getting adequate rest, and to follow safety precautions for injury prevention. This course requires students to sustain efforts to improve their fitness and overall health over a period of several weeks.
FIT-045-S002	FIT 045: Lifetime Weight Control	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Lifetime Weight Control contains guidelines for healthy weight control, nutrition, diet, and exercise, as well as myths and facts about weight control. Students must engage in a five-week fitness program to receive credit.
FIT-049-S002	FIT 049: Fitness for Sports and Recreation	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is an overall fitness training and nutrition course designed for students who are involved in either competitive or recreational sports such as football, soccer, swimming, cheerleading, track, snowboarding, rock climbing, etc. This fitness course is designed to help students achieve their maximum fitness level and increase strength and stamina to achieve peak competitive condition. Students will participate in several physical activities designed to increase fitness. Students must engage in a 13-week fitness program to receive credit.
FOODS-041-S003	FOODS 041: Food and Nutrition, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this hands-on food and nutrition course, students will use a variety of sources and activities to discover how food affects the way their body works, including cooking meals, researching individual nutrition needs, tracking eating habits, and planning meals based on scientific guidelines. Students will also learn about different careers related to food and nutrition through interviews with various professionals in the field. This is the first course in a two-part Food and Nutrition series (FOODS 041 and FOODS 043).
FOODS-043-S003	FOODS 043: Food and Nutrition, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this food and nutrition course, students will use a variety of sources and activities to discover how food affects the way their body works, including cooking meals, researching individual nutrition needs, tracking eating habits, and planning meals based on scientific guidelines. In this hands-on course, students will also learn about different careers related to food and nutrition through interviews with various professionals in the field. This is the second course in a two-part Food and Nutrition series (FOODS 041 and FOODS 043).
GARD-041-S002	GARD 041: Home Gardening	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course introduces students to vegetable gardening, including design, preparation, planting, and growing.
GOLF-041-S002	GOLF 041: Golf	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course includes instruction for proper golf grip, stance, backswing, downswing, follow-through, short game, putting, problem shots, proper club for fairway distance, rough, greens, sand traps, etc. It also teaches golf terminology, rules, and etiquette and requires 45 holes of golf over three to four months. Students must submit scorecards from five games to receive credit.
GUITR-041-S002	GUITR 041: Beginning Guitar	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This beginning guitar course gives students the broad foundation they will need to excel in various styles of guitar music: folk, classical, and even modern rock. Students will learn to read tablature, lead sheets, and traditional notation; they will master common chords, notes, strumming, and fingerpicking patterns. The information is presented with the modern teenager in mind and takes a fun, step-by-step approach.
INTDE-041-S002	INTDE 041: Interior Design, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is an introduction to interior design. Students will learn the fundamentals of design and their application to interiors as they create designs and share them with their peers.
JOG-041-S004	JOG 041: Jogging	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course guides students to becoming physically fit through jogging and helps them set up a long-term program to maintain fitness. Students must engage in a fitness program for a minimum of six weeks to receive credit, jogging a minimum of 60 miles over at least 45 days to receive a passing grade.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
MUSIC-041-S002	MUSIC 041: Introduction to Music	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this introduction to music, students will discover what makes music tick, learn about its greatest composers, and hear their masterpieces in a fresh way. This course also explores the music of other cultures, including jazz, hip-hop, and rock and roll.
		Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	
SELFG-049-S002	SELFG 049: Essential Life Skills	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students learn how to lay a foundation for successful, responsible adulthood by using time effectively, setting goals, avoiding procrastination, overcoming feelings of inadequacy, and developing self-motivation.
SELFG-051-S002	SELFG 051: Leadership	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students learn about different types of leadership, the characteristics of a leader, how leaders make effective decisions, and the secret to becoming a good leader.
SELFG-055-S002	SELFG 055: Study Skills	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is designed to help students master themselves and their ability to study, learn, and retain information in a manner that most aptly fits their learning style. Students will discover their learning style, learn how to use time effectively, learn listening skills, and learn tips for taking better notes.
SELFG-057-S002	SELFG 057: Education and Career Planning	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students evaluate their personal interests and values, research occupations that are of interest, and draw conclusions about themselves and the world of work.
STDEV-051-S003	STDEV 051: Online Prep: Tools For Success	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a guide to help students succeed in the online learning environment, and specifically in a BYU Independent Study course. Students will engage in learning content and activities to increase their study skills and their success in online and distance education classes. Students will explore tools and tips for digital natives, analyze the best use of a learning management system, set up schedules to use their time effectively, apply test-taking strategies, and discover their ideal learning style.
SWIM-043-S002	SWIM 043: Intermediate Swimming	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course on swimming encourages cardiovascular fitness through the four competitive strokes: freestyle, backstroke, breaststroke, and butterfly. Students must engage in a fitness program for a minimum of 10 weeks to receive cre
TEN-041-S002	TEN 041: Tennis	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This tennis course teaches the forehand, backhand, lob, serve, and other skills necessary to play tennis; written and unwritten rules of the game; and singles and doubles strategy. Access to appropriate equipment and a partner is required. Students must engage in a six-week fitness program to receive credit.
WALK-041-S003	WALK 041: Walking Fitness	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This walking course guides students to become physically fit while simultaneously helping them set up a long-term fitness program. Students must engage in a walking fitness program for a minimum of 45 days to receive credit. Walking is the base element for many other activities and is an excellent foundation for expanded conditioning programs.
WTRNG-041-S002	WTRNG 041: Weight Training	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students learn the benefits of muscular fitness, proper weight training techniques, and how to set up their own personal weight-training program. Students must engage in a fitness program for a minimum of 12 weeks to receive credit. Before beginning any exercise program, consult with your doctor. Participants and their legal guardians assume all responsibility and risk associated with any participation in any exercise program or related activities. 1. Muscle Strength and Endurance 2. Muscle Structure and Functions 3. Weight Training Guidelines 4. Common Lessons in Weight Training 5. Exercise Log 6. Cumulative Review
ENGL-031-S003	ENGL 031: Seventh-Grade English, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn to identify themes in literature, analyze techniques in poetry, recite a poem using effective presentation skills, compare selected genres in literature, read and interpret Shakespearean sonnets and excerpts from a play, compose a well-supported research paper, apply reading and writing strategies to a novel, and expand and enrich their vocabulary by applying word-mastery strategies. This is the first course in a two-part Seventh-Grade English series (ENGL 031 and ENGL 033).
ENGL-033-S003	ENGL 033: Seventh-Grade English, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn to identify themes in literature, analyze techniques in poetry, recite a poem using effective presentation skills, compare selected genres in literature, read and interpret Shakespearean sonnets and excerpts from a play, compose a well-supported research paper, apply reading and writing strategies to a novel, and expand and enrich their vocabulary by applying word-mastery strategies. This is the second course in a two-part Seventh-Grade English series (ENGL 031 and ENGL 033).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
ENGL-035-S003	ENGL 035: Eighth-Grade English, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In a world of words, students will learn how to put words together naturally, express themselves confidently, and explore the world of reading and writing through study and practice. Fifteen hours of reading of nonfiction texts will be required in addition to the course novel. This is the first course in a two-part Eighth-Grade English series (ENGL 035 and ENGL 037).
ENGL-037-S003	ENGL 037: Eighth-Grade English, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course will enhance students'— vocabulary, writing strategies, argumentative and persuasive techniques in writing and speaking, and ability to analyze literature and media. Students will also be able to identify the elements of the research process and incorporate them into their own research papers. This is the second course in a two-part Eighth-Grade English series (ENGL 035 and ENGL 037).
GSCI-031-S003	GSCI 031: Seventh-Grade Science, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This introductory integrated science course focuses on matter and its organization, cells and the basic building blocks of life, and the basic structure and function of living things. This is the first course in a two-part Seventh-Grade Science series (GSCI 031 and GSCI 033); however, either course may be taken independently of the other.
GSCI-031-S003	GSCI 031: Seventh-Grade Science, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This introductory integrated science course focuses on matter and its organization, cells and the basic building blocks of life, and the basic structure and function of living things. This is the first course in a two-part Seventh-Grade Science series (GSCI 031 and GSCI 033); however, either course may be taken independently of the other.
GSCI-035-S003	GSCI 035: Eighth-Grade Science, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this introduction to integrated physics and chemistry, students will begin their study of the natural world by looking at its smallest parts, atoms; the course will then focus on how objects interact, including discussions of energy, motion, and force. Students will apply the concepts of force, motion, and work in a hands-on, simple-machines lesson. This is the first course in a two-part Eighth-Grade Science series (GSCI 035 and GSCI 037).
GSCI-037-S003	GSCI 037: Eighth-Grade Science, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will look at the systems that shape the earth, including plate tectonics, the rock cycle, erosion, and the atmosphere. This is the second course in a two-part Eighth-Grade Science series (GSCI 035 and GSCI 037).
HLTH-031-S002	HLTH 031: Health Education	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course educates students about healthy choices and teaches them how to put those choices into practice in their daily lives.
MATH-031-S003	MATH 031: Seventh-Grade Mathematics, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn to represent data with different graphs and plots, find measures of central tendency, produce probabilities, and use estimation and problem-solving skills; this course also covers basic geometric concepts such as solving problems with line segments and types of polygons, performing operations with decimals, finding factors and multiples of numbers, and finding areas and perimeters of different polygons. This is the first course in a two-part Seventh-Grade Mathematics series (MATH 031 and MATH 033).
MATH-033-S003	MATH 033: Seventh-Grade Mathematics, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will learn about performing operations with fractions and working with ratios, proportions, and percents; this course also includes finding different types of probabilities, performing operations with integers, and using algebraic properties and the order of operations to simplify expressions as well as solving one-step equations. This is the second course in a two-part seventh-grade mathematics series (MATH 031 and MATH 033).
MATH-035-S002	MATH 035: Eighth-Grade Mathematics, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Eighth-grade math continues the coverage of basic math concepts that began with the seventh-grade math courses. Students will learn equation concepts, linear equations, systems of equations, functions, exponents, and the number system. Students will also explore real-world applications of different methods. This is the first course in a two-part Eighth-Grade Mathematics series (MATH 035 and MATH 037). This course also encompasses Common Core content.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
MATH-037-S001	MATH 037: Eighth-Grade Mathematics, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Eighth-grade math continues the coverage of basic math concepts that began with the seventh-grade math courses. MATH 037 covers the second half of the eighth-grade content. We will study topics such as analyzing triangles and the distance between points, finding the measure of angles formed by a transversal and polygons, using different transformations to move figures on a coordinate plane, determining if figures are similar or congruent using transformations, finding the volume and missing measures of various shapes (cylinders, cones, hemispheres, spheres, and composite figures), and interpreting two-way tables and scatter plots with trend lines.
READ-033-S002	READ 033: Reading Comprehension, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This reading comprehension course covers important pre-, during-, and after-reading techniques; it also includes a look at some of the most common feelings that are found in books and people. Students will read about pure happiness in Charlie and the Chocolate Factory, loneliness in The Wizard of Oz, utter surprise in Harry Potter and the Goblet of Fire, love in The Adventures of Tom Sawyer, and much, much more as they explore 30 excerpts from great literature while learning about reading techniques. This is the first course in a two-part Reading Comprehension series (READ 033 and READ 035).
READ-035-S002	READ 035: Reading Comprehension: Understanding Literature, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this reading comprehension course, students will learn more during-reading techniques; those who liked the first course in this series will love this follow-up course that focuses even more on feelings portrayed through literature. They can join in the fun and read amazing fiction in The Adventures of Pinocchio, the magical tales of Harry Potter and his friends, a story of true bravery in Alice in Wonderland, and much, much more. Students will explore excerpts from Newbery Award-winning books and classic literature while focusing on reading techniques. This is the second course in a two-part Reading Comprehension series (READ 033 and READ 035).
SOCST-033-S002	SOCST 033: Survey Of World History, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course will compare historical and cultural events in Europe with the same type of events in the Americas (North, Central, and South) during the same time period; highlights include in-depth discussions on medieval Europe, the Renaissance, the Aztecs, the Incas, and the colonial efforts in North America. This is the first course in a two-part World History series for grades seven and eight (SOCST 033 and SOCST 034); however, either course may be taken independently of the other.
SOCST-034-S002	SOCST 034: Survey Of World History, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course will compare historical and cultural events in Europe with the same types of events in the Americas during the same time period; highlights include in-depth discussions on the Constitution of the United States of America, the Revolutionary War, the French Revolution, and an examination of the Thirteen Colonies. This is the second course in a two-part World History series for grades seven and eight (SOCST 033 and SOCST 034); however, either course may be taken independently of the other.
SOCST-035-S002	SOCST 035: United States History, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is a survey course emphasizing 18th-century and 19th-century historical events from the age of exploration through the American Revolution; topics will include historical events such as the colonization of America and the Revolutionary War. This is the first course in a four-part United States History series for grades seven and eight (SOCST 035, SOCST 036, SOCST 037, and SOCST 038); however, any of these courses may be taken independently of the others.
SOCST-036-S002	SOCST 036: United States History, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is a survey course of United States history covering the Constitutional Convention to the Civil War and Reconstruction. This is the second course in a four-part United States History series for grades seven and eight (SOCST 035, SOCST 036, SOCST 037, and SOCST 038); however, any of these courses may be taken independently of the others.
SOCST-037-S002	SOCST 037: United States History, Part 3	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is a survey course of United States history from the Wild West to the Roaring Twenties; it covers the history of immigration, politics and the rise of big business, the Progressive Era, and World War I. This is the third course in a four-part United States History series for grades seven and eight (SOCST 035, SOCST 036, SOCST 037, and SOCST 038); however, any of these courses may be taken independently of the others.
SOCST-038-S002	SOCST 038: United States History, Part 4	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is a survey course of United States history from the Great Depression through recent American history. This is the fourth course in a four-part United States History series for grades seven and eight (SOCST 035, SOCST 036, SOCST 037, and SOCST 038); however, any of these courses may be taken independently of the others.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
ALG-041-S002	ALG 041: Pre-Algebra, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn how to work with fundamental mathematical functions with integers, fractions, and decimals; use the order of operations to evaluate variable expressions; solve variable equations using transformations; translate word sentences into mathematical equations; and solve world problems. This is the first course in a two-part Pre-Algebra series (ALG 041 and ALG 043).
ALG-043-S002	ALG 043: Pre-Algebra, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course includes using ratios, rates, and proportions to solve problems; changing fractions, percents, and decimals; and solving problems involving percentages such as discounts, markups, commissions, profit, simple and compound interest, etc. This is the second course in a two-part Pre-Algebra series (ALG 041 and ALG 043).
ALG-051-S003	ALG 051: Algebra 1, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of the properties of sets of real numbers, linear equations, linear functions and inequalities; contains lessons that teach students how to solve problems using algebra, geometry, radical expressions, and equations; and covers graphing, algebraic equations, and systems of equations and inequalities. This is the first course in a two-part Algebra 1 series (ALG 051 and ALG 053).
ALG-053-S003	ALG 053: Algebra 1, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of linear relations and functions, systems of equations and inequalities, exponents and powers, rational functions, quadratic functions, polynomial functions other than quadratics, and sequences and series. This is the second course in a two-part Algebra 1 series (ALG 051 and ALG 053).
ALG-055-S003	ALG 055: Algebra 2, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of equations and inequalities, linear relations and functions, systems of equations and inequalities, matrices, polynomials, radical expressions, and quadratic equations. This is the first course in a two-part Algebra 2 series (ALG 055 and ALG 057). This course also encompasses the Common Core content.
ALG-057-S003	ALG 057: Algebra 2, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of conics, polynomial functions, rational functions, rational polynomial expressions, exponential and logarithmic functions, sequences and series, probability and statistics, and trigonometric functions. This is the second course in a two-part Algebra 2 series (ALG 055 and ALG 057). This course also encompasses Common Core content.
BIOL-041-S002	BIOL 041: Biology, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	After learning about the scientific method, students will study life at its most basic level, the cell. Students will then use the cell as a foundation for understanding how life evolves, including a detailed discussion of DNA, genetics, and evolution. Each lesson in this course includes an interview with a professional in a career related to biology. Two thousand years ago most people agreed that life, death, sickness, and health were the result of fickle gods. Today we know a little more about the principles behind life and seek to learn more through the study of biology. This is the first course in a two-part Biology series (BIOL 041 and BIOL 043).
BIOL-043-S002	BIOL 043: Biology, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will continue studying life, but with a progressively wider lens by discovering the variety of life that has evolved, determining how to categorize different living things, and comparing how these living things interact with their environment. This is the second course in a two-part Biology series (BIOL 041 and BIOL 043).
BIOL-049-S002	BIOL 049: Human Anatomy	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	The question, "How does the human body do what it does?" is answered in Human Anatomy through an in-depth study of systems in the human body, including the digestive, respiratory, immune, circulatory, and reproductive systems.
BMATH-041-S002	BMATH 041: Business and Consumer Math, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn practical applications of mathematical skills such as buying a car, home, and insurance; budgeting; bank services; and savings and investing. This is the first course in a two-part Business and Consumer Math series (BMATH 041 and BMATH 043).
BMATH-043-S002	BMATH 043: Business and Consumer Math, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course includes taxes, math in the workplace, statistics, probability, measurement, manufacturing, insurance, and supplying services. This is the second course in a two-part Business and Consumer Math series (BMATH 041 and BMATH 043).
CHEM-041-S002	CHEM 041: Chemistry, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is an introductory chemistry course that includes topics such as matter and energy, the atomic theory, electron clouds and probability, the periodic table, chemical bonding, chemical formulas, and balancing equations. This course has few mathematical computations and includes several virtual lab demonstrations. This is the first half of a two-part General Chemistry series (CHEM 041 and CHEM 043).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
CHEM-043-S002	CHEM 043: Chemistry, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a continuation of introductory chemistry and includes topics such as moles, states of matter, behaviors of gases, solutions, reaction rates, chemical equilibriums, solubility, acids and bases, oxidation-reduction reactions, electrochemistry, and nuclear chemistry. This course has few mathematical computations and includes several virtual lab demonstrations. This is the second half in a two-part General Chemistry series (CHEM 041 and CHEM 043).
EARTH-041-S002	EARTH 041: Earth Science, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn about the science behind recent natural disasters involving hurricanes, earthquakes, and tsunamis. Students will also learn about the structure of our atmosphere and how it makes life on earth possible. This is the first course in a two-part Earth Science series (EARTH 041 and EARTH 043).
EARTH-043-S002	EARTH 043: Earth Science, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of natural and manmade systems of the universe, including the solar, energy, atmospheric, and biological systems. This is the second course in a two-part Earth Science series (EARTH 041 and EARTH 043).
EARTH-051-S002	EARTH 051: Astronomy	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this non-mathematical look at astronomy, students will learn what people have traditionally thought about space and how scientists currently study it.
EARTH-055-S002	EARTH 055: Meteorology	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In Meteorology, students will learn how severe weather conditions like hurricanes, tornadoes, and thunderstorms develop. In this nonmathematical look at meteorology, students will also learn why the earth has seasons and how water in the atmosphere affects weather.
ECON-041-T003	ECON 041: Economics	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course focuses on the study of economic problems and the methods by which societies solve them. It examines the characteristics of the market economy of the United States and its function in the world. It helps students develop opinions based on economic principles and provides opportunities to share those opinions with their peers as they discuss current events.
ENGL-041-T001	ENGL 041: Ninth-Grade English, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn effective strategies for reading fiction, nonfiction, and poetry; students will also explore and implement elements of effective writing. Writing assignments include a learning journal, a photo essay, a personal narrative, and a process paper. Students will learn new vocabulary and review grammatical concepts. This is the first course in a two-part Ninth-Grade English series (ENGL 041 and ENGL 043). This course also encompasses Common Core content.
ENGL-043-T001	ENGL 043: Ninth-Grade English, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course incorporates reading, writing, speaking strategies, vocabulary, Internet research skills, essay and speech writing, and reading texts from various genres; students will also have the opportunity to use instructional multimedia and video interviews. This is the second course in a two-part Ninth-Grade English series (ENGL 041 and ENGL 043). This course also encompasses Common Core content.
ENGL-045-T001	ENGL 045: Tenth-Grade English, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will develop new perspectives through interpreting literature, expanding vocabulary, and writing creatively; students will also enhance their writing skills by examining point of view, character development, figurative language, and audience. This course is highly interactive and includes a live course orientation, weekly webinars with the course instructor, and reviews with the course TA. This is the first course in a two-part Tenth-Grade English series (ENGL 045 and ENGL 047). This course also encompasses Common Core content.
ENGL-047-T001	ENGL 047: Tenth-Grade English, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course offers a myriad of reading and writing activities that are designed to strengthen students' background knowledge in the genres of poetry, short story, myth, nonfiction, and novel. This is the second course in a two-part, Tenth-Grade English series (ENGL 045 and ENGL 047). This course also encompasses Common Core content.
ENGL-051-T001	ENGL 051: Eleventh-Grade English, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is a rigorous eleventh-grade English course in which students will study American literature. They will be studying selections from <i>The Crucible</i> , reading the novel <i>To Kill a Mockingbird</i> , writing a research book report, and completing writing assignments that contrast historical and fictitious events described in literature. Students will also be studying Latin and Greek terms, developing their vocabulary, and enhancing their writing skills. This is the first course in a two-part Eleventh-Grade English series (ENGL 051 and ENGL 053). This course also encompasses Common Core content.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
ENGL-053-T001	ENGL 053: Eleventh-Grade English, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This English course is a continuation of Eleventh-Grade English, Part 1 and contains a reading emphasis on literary, functional, and informational selections. A research report with an outline, works cited, and in-text documentation will be required. This course also includes analyses, original stories, and poems. Students will develop their writing style to improve effectiveness, clarity, and variety. This is the second course in a two-part Eleventh-Grade English series (ENGL 051 and ENGL 053). This course also encompasses Common Core content.
ENGL-055-T001	ENGL 055: Twelfth-Grade English, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will develop a basic understanding of poetry as they analyze and isolate figures of speech, enhance their writing skills as several different rhetorical modes are practiced, and enlarge their vocabulary while becoming more proficient at punctuation. This is the first course in a two-part Twelfth-Grade English series (ENGL 055 and ENGL 057). This course also encompasses the Common Core State Standards.
ENGL-057-T001	ENGL 057: Twelfth-Grade English, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will gain a basic understanding of rhetoric as they become more proficient in their writing, enlarge their vocabulary, and recognize how to skillfully approach poetry. Students will also learn to assess writing more effectively by using the Six Traits Analytical Model Writing Assessment. This is the second course in a two-part Twelfth-Grade English series (ENGL 055 and ENGL 057). This course also encompasses the Common Core State Standards.
ENVRN-041-S002	ENVRN 041: Environmental Science	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students in Environmental Science will learn about the fundamentals of ecology: rocks, minerals, and soil; biomes; surface water and oceans; and earth and energy resources and human impact on these resources.
GEOG-041-S002	GEOG 041: World Geography	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course explores each of the elements of the 18 National Geography Standards, which are outlined by the National Council for Geographic Education. While examining the physical and human forces that shape our world, students will use geography tools, including maps and graphs, to analyze and consider the ways resources are used, and investigate advancements in technology that affect the way we live.
GEOM-041-S003	GEOM 041: Plane Geometry, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of segments and angles, mathematical reasoning, parallel lines, triangles, polygons, quadrilaterals, and similarity. This is the first course in a two-part Geometry series (GEOM 041 and GEOM 043). This course also encompasses Common Core content.
GEOM-043-S003	GEOM 043: Geometry, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of perimeter and area, right triangle trigonometry, properties of circles, calculations for circles, coordinate geometry, geometric solids, and probability and statistics. This is the second course in a two-part Geometry series (GEOM 041 and GEOM 043). This course also encompasses Common Core content.
GOVT-041-T003	GOVT 041: American Government, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers the fundamentals of government and citizenship and focuses on the major ideas, protections, privileges, structures, and economic systems that affect the life of a citizen in the United States political system.
GOVT-043-S003	GOVT 043: American Government, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course examines American government, including the Constitution, Bill of Rights, Founding Fathers, the American presidency, legislative and judicial branches, the American Dream and free enterprise, freedom of the press, national and local security, immigration, and citizenship. It also provides application activities in each area.
GOVT-045-T002	GOVT 045: United States Government and Citizenship	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course fulfills the California state standards for Principles of American Democracy by covering the fundamentals of government and citizenship and focusing on the major ideas, protections, privileges, structures, and economic systems that affect the life of a citizen in the United States political system.
HIST-041-200	HIST 041: United States History to 1850	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is the fascinating story of people, events, and ideas that shaped the early United States and why these concepts matter now. This is the first course in a two-part United States History series (HIST 041 and HIST 043).

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
HIST-043-200	HIST 043: United States History from 1851	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This survey course emphasizes the growth and development of the United States from 1851 to the present. During the course, students will make personal connections with specific events and individuals in US history while developing an understanding of democratic values. Each lesson includes an instructor-graded portfolio activity, which should be submitted together as a whole before requesting the final. This is the second course in a two-part United States History series (HIST 041 and HIST 043).
HIST-051-S002	HIST 051: Northwest History	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	The history of the northwestern United States is shaped by an understanding of geography: the physical features and processes of the area; the people who have inhabited the area: the Native Americans, explorers, traders, and missionaries; and the events: exploration, immigration, wars, treaties, railroads, and the emergence of the United States. The 20th century continued to shape the Northwest through growth of industry, immigration, and statehood.
HIST-054-S002	HIST 054: New Mexico State History	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This New Mexico history course enables students to gain a deeper appreciation for and understanding of the history of the great state of New Mexico. It is designed to cover all of the core standard requirements for students as prescribed by the state of New Mexico.
HIST-057-S002	HIST 057: History of the American West	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers the role of the West in the development of the United States. The discussion begins with exploration and colonization; moves to Texas and Oregon, the mining frontier, the cowboy, the farming frontier, and the impact of the military; and concludes with the continuing challenges of the American West. The course also explores the geography and the people that live there.
HIST-062-S001	HIST 062: World History: Eastern Hemisphere	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Students will explore the major historical events, personalities, and cultures of three groups in the Eastern Hemisphere: Africa, the Middle East, and Asia. Each region will be addressed within the framework of early history, more recent history, and present-day circumstances. This is the first course in a two-part World History series (HIST 062 and HIST 064); however, each course may be taken independently.
HIST-064-S001	HIST 064: World History: Western Hemisphere	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course takes a closer look at the history of the Americas, particularly Latin America. The discussion begins with pre-European America, the conquest of the Aztec and Incan empires, the colonization of Latin America by Spain, and the Latin American independence movement, and concludes with an examination of the issues facing Latin America today. Included in the discussion are the influences the American Revolutionary War, the French Revolution, and the Industrial Revolution had on Latin America. Finally, the course examines World War I and World War II. This is the second course in a three-part World History series (HIST 062, HIST 064, and HIST 065); however, any of these courses may be taken independently of the others.
HIST-065-S002	HIST 065: World History: Europe and Russia	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course examines the history of Europe through a discussion of change that begins with medieval Europe; moves to the Renaissance, the Reformation, the rise of monarchs, the Enlightenment, the Industrial Revolution, the influence of nationalism on Europe, and the rise of totalitarian governments; and concludes with a discussion of Europe today. The course asks students to decide whether the changes were for the best. This is the third course in a three-part World History series (HIST 061, HIST 063, and HIST 065); however, any of these courses may be taken independently of the others.
HIST-066-S002	HIST 066: World Civilizations	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is an overview of the increasing interrelationships of the world's peoples from early and classical civilizations, the Age of Discovery, and early modern and contemporary societies through the 20th century.
HLTH-041-S004	HLTH 041: Health Education, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers developing a healthy self, substance-abuse prevention, human development, relationships, disease prevention, HIV/AIDS education, CPR and safety, consumer health, injury/violence prevention, nutrition, fitness, and community health.
HLTH-042-S002	HLTH 042: Health Education, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers developing healthy sun exposure habits, acquiring knowledge and skills to practice healthy habits that prevent and/or control disease, learning positive tactics to avoid drug use, and learning healthy eating strategies. This is the second course in a two-part Health Education series (HLTH 041 and HLTH 042) for students needing a full year of health education credit.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
HLTH-043-S002	HLTH 043: Eating Disorders and Basic Nutrition	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course covers eating disorders such as anorexia and bulimia, various weight-related diseases, and principles of proper nutrition and physical activity. It also compares optimum weight and nutrition to eating disorders.
HLTH-045-S002	HLTH 045: Drug Use and Abuse	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course helps students understand why people use drugs, how they use them, and what types of drugs are commonly abused. Because drugs can affect all of us, Drug Use and Abuse raises awareness about drug use and abuse.
LIT-045-S002	LIT 045: Understanding Literature	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Understanding Literature will assist students in reading, analyzing, and interpreting short stories, poetry, novels, and plays for content, thematic meaning, and personal relevance.
LIT-047-S002	LIT 047: Advanced Literature Comprehension	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course provides an exploration of proven masters in major genres, including epic poetry, short story, drama, and the novel. Major themes include love of self, of others, and of principle.
LIT-061-S002	LIT 061: Science Fiction Literature	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course evaluates the future through science fiction; it looks at the best and worst future possibilities if present trends in society and present human traits continue.
MATH-047-200	MATH 047: Applied Math, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course includes learning to use mathematics to solve problems on the job; learning to use a calculator; estimating; measuring; using graphs, charts, and tables; and working with data, lines, and angles. This course features a math lab, where extra practice and instruction are given in an interactive lab setting. This is the first course in a two-part Applied Math series (MATH 047 and MATH 049).
MATH-049-200	MATH 049: Applied Math, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	Continuing from the concepts learned in Applied Math, Part 1 (MATH 047), this course covers mathematics applied to the real world; it includes two- and three-dimensional shapes, ratios and proportions, scale drawings, signed numbers and vectors, as well as scientific notations, powers, and roots. This course features a math lab, where extra practice and instruction are given in an interactive lab setting. This is the second course in a two-part Applied Math series (MATH 047 and MATH 049).
MATH-051-T003	MATH 051: Secondary Mathematics I, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of sets of real numbers, linear equations and graphs, linear functions, systems of equations and inequalities, segments and angles, mathematical reasoning, parallel lines, and sequences and series. This is the first course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
MATH-052-T003	MATH 052: Secondary Mathematics I, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of linear relations and functions, systems of equations and inequalities, triangles, similarity, coordinate geometry, exponents and powers, and quadratic functions. This is the second course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
MATH-053-T003	MATH 053: Secondary Mathematics II, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of linear relations and functions, exponents and powers, triangles, polygons, quadrilaterals, similarity, radical expressions, quadratic functions and equations, and perimeter and area. MATH 053 is the third course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
MATH-054-T003	MATH 054: Secondary Mathematics II, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of quadratic equations, polynomial functions, right triangle trigonometry, circles, conics, probability and statistics, and geometric solids. This is the fourth course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
MATH-055-T003	MATH 055: Secondary Mathematics III, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of the properties of inequalities, problems solved using algebraic and geometric concepts, radical expressions and simple radical equations, equations and inequalities, linear relations and functions, polynomial functions, rational functions, systems of equations and inequalities, and matrices. This is the fifth course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
MATH-056-T003	MATH 056: Secondary Mathematics III, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This integrated math course is a study of coordinate geometry, geometric solids, conics, polynomial functions, rational polynomial expressions, quadratic equations, exponential and logarithmic functions, sequences and series, probability and statistics, and trigonometric functions. This is the sixth course in a six-part High School Integrated Math series (MATH 051, MATH 052, MATH 053, MATH 054, MATH 055, and MATH 056). This course also encompasses Common Core content.
PHSCS-041-S002	PHSCS 041: Physics, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This physics course is a mathematical treatment of motion and inertia, Newton's laws, momentum and energy, circular motion and gravitation, gravitational interactions and satellites, etc. This course includes instructions for lab activities that can be completed with commonly available equipment. This is the first course in a two-part Physics series (PHSCS 041 and PHSCS 043).
PHSCS-043-S002	PHSCS 043: Physics, Part 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This physics course is a mathematical treatment of change of state, thermodynamics, wave and sound, light and color, lenses, electric charges and fields, current and circuits, satellites, magnetism, nuclear reaction, etc. This course includes instructions for lab activities that can be completed with commonly available equipment. This is the second course in a two-part Physics series (PHSCS 041 and PHSCS 043).
PHYS-041-S002	PHYS 041: Physical Science	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this introductory course, students will learn to apply basic concepts of physical science in exploring, experimenting with, and solving problems.
READ-041-S002	READ 041: Speed Reading	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course teaches skills for effectively increasing reading speed and comprehension.
READ-045-S002	READ 045: Reading Comprehension	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course will identify important strategies to assist students in understanding and remembering what they have read. It will help students improve their reading speed and comprehension through carefully designed exercises. Fluency and vocabulary will be included with comprehensive skills.
READ-049-S002	READ 049: Recreational Reading	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is all about giving students the tools to become better readers and more appreciative of good books; this will help them understand the joy that comes from recreational reading. Ralph Waldo Emerson said, "Tis the good reader that makes the good book." Students will learn reading strategies that will not only help them become better readers, but will also help students enjoy reading even more.
READ-051-S002	READ 051: Reading around the World	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This reading course takes students on a literary journey around the world by reading the adventures of Harry Potter, Gandhi's words of wisdom, Chilean folk tales, and much more while learning about important pre-, during-, and after-reading techniques.
SOCSC-041-S002	SOCSC 041: Current Events	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course investigates what is happening in the world today, including significant events, behind-the-scenes causes, who's who, and future trends. It teaches students how to effectively gather accurate information by studying primary sources.
SOCSC-051-S002	SOCSC 051: Sociology	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is a study of the way groups act and think as a result of socialization. It also focuses on students' roles in society and how they can personally make a difference.
SOCSC-055-S002	SOCSC 055: Psychology	Original Credit	Textbook - \$70	On Grade Reading Level	Buzz	0.5	This course explores the basic theories and principles of psychology. It guides students to a better understanding of the self. Students will also study consciousness and adolescent development, as well as traditional topics such as behaviorism, personality, learning, and social psychology.
TRIG-041-T002	TRIG 041: Trigonometry, Part 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course focuses on trigonometric principles as an extension of algebraic and geometrical concepts. Students will study angles, arcs, the unit circle, right triangle trigonometry, the six trig functions, inverse functions, fundamental trig identities, verifying trig identities, solving trig equations, the law of sines, the law of cosines, vectors, complex numbers, and polar coordinates.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
WRIT-041-S002	WRIT 041: English Usage	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is an introductory English course designed to create a full foundation for the English language by focusing on the basics of grammar, such as parts of speech, types of sentences, and commonly misused words. This course prepares students to read and write within the conventions of English.
WRIT-043-S002	WRIT 043: Technical Writing	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is designed to help students write to convey information clearly, concisely, and accurately; to experience comprehensive editing and copyediting; and to write instructions and memos. This course will also help students improve their writing style.
WRIT-045-S002	WRIT 045: Creative Writing	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course guides students in writing fiction by learning and using the elements of creative writing: plot, character development, dialogue, description, scene, transition, and point of view. Two short stories are required.
WRIT-047-S002	WRIT 047: Writing Poetry	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course is designed to improve and enhance students' own poetic skills by teaching them how poets use the language devices of sound, sensory images, figurative expressions, and musical rhythms to share their insights through word-art. Throughout the course, students will experiment with traditional formats and with many free-verse styles of poetry.
WRIT-049-S002	WRIT 049: Journalism	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	In this course, students will learn the fundamentals of modern journalism: reporting, interviewing, writing techniques, censorship issues, page design, and broadcast journalism. A portfolio folder is required. 1. What Exactly Is News? 2. Who Is in the News? 3. Where Do I Start? 4. When It All Flows Together 5. How the Stories are Different 6. Why Do I Have to Paste Up the Dummy? 7. Broadcast Journalism 8. Where Do We Go from Here?
INFOP-041-S003	INFOP 041: Keyboarding	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course will guide students through attaining proficiency in touch typing and word processor formatting skills. In an increasingly digital world, the ability to quickly and accurately type and create well formatted documents will prove to be invaluable and advantageous in completing school work, communicating professionally, and pursuing personal education and career goals.
CS-041-T001	CS 041: Computer Science 1	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is an introductory semester course in computer programming/software engineering and applications. The course introduces students to the fundamentals of computer programming. Students will learn to design, code, and test their own programs. The course will introduce basic programming concepts to beginning students through the Python programming language, preparing them for the second semester where they will learn object-oriented programming skills in an Internet environment.
CS-043-T001	CS 043: Computer Science 2	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This is the continuation of CS041 and builds upon the concepts and skills students acquired in the first course. The main focus in this course is programming for the internet. Most modern web applications are built on three interacting building blocks: (1) Client programs that run locally in the user's web browser, (2) server programs that run on machines in data centers, and (3) databases for information storage. In this course students will learn how to write client and server code, and become familiar with database usage to build simple web applications. It is not the goal of this course to teach how to build graphically attractive web programs but rather to teach the mechanics underpinning modern web applications.
CTECH-041-S002	CTECH 041: Computer Technology	Original Credit	No Textbook	On Grade Reading Level	Buzz	0.5	This course provides an introduction to computer application software. Students will learn to create documents, spreadsheets, and presentations using Microsoft Office 2013. The basics of operating systems and the use of email are also covered.
Alaska Studies	Alaska Studies	Original Credit, At Risk	Two Textbooks	At Grade Reading Level	Canvas	0.5	This course is designed to meet the state requirement of one-half unit of credit in Alaska history or demonstration that the students meet the Alaska history performance standards. Alaska Studies first quarter covers the physical geography of Alaska followed by the people of Alaska. The second quarter is a more in-depth look into the Alaska's five regions and their unique cultures.
Biology	Biology	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Biology is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Biology credit. Topics covered include:1) Structure and Function, 2) Inheritance and Variation of Traits, 3) Matter and Energy in Organisms and Ecosystems, 4) Interdependent Relationships in Ecosystems, and 5) Natural Selection and Evolution. Assignments focus on learning the content, demonstrating comprehension, and using the information to answer a hands-on investigation question.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
Eath Science	Eath Science	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Earth Science is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Earth Science credit. Topics covered include: Space Systems, History of Earth, Earth's Systems, Weather and Climate, and Human Sustainability. Assignments focus on learning the content, demonstrating comprehension, and using the information to answer a hands-on investigation question.
Physical Science	Physical Science	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Physical Science is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Physical Science credit. Topics covered include: the Metric System; Properties of Matter; Structure of Matter; Classifying Elements; Compounds; How Matter Changes; Motion; Work and Machines; Heat: Sound and Light; Electricity; and Magnets and Electromagnetism. Assignments focus on learning the content, demonstrating comprehension, and using the information to answer a hands-on investigation question.
Environmental Science	Environment al Science	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Environmental Science is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Environmental Science credit. Topics covered include: Exploring Science and the Environment; The Dynamic Earth; How Living Things Interact; The Diversity of Life; Biomes of the World; People and the Environment; Energy; Water Resources and Water Pollution; Air Pollution; Solid and Hazardous Waste; Feeding the World; Protecting Biodiversity; and A Sustainable World.
U.S. History	U.S. History	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. United States History is a comprehensive course that covers the full range of United States History broken into 10 Units: The beginnings of American history to 1607, colonization and settlement, revolution and the new nation, expansion and reform, the Civil War and Reconstruction, the development of industry, the start of the modern nation, the Depression and WWII, period after WWII, and contemporary United States.
U.S. Government	U.S. Government	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. United States Government is a comprehensive course that covers: the beginnings of American government; the Constitution;the legislative, executive, and judicial branches; creation on workings of states; local governments; political parties; citizenship; and some world politics.
World History	World History	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school.
World Geopgraphy and Cultures	World Geopgraphy and Cultures	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. World Geography and Cultures covers location, physical features, poeple and cultures, and economies of 23 regions of the world.
Economics	Economics	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school.
Algebra	Algebra (also known as Algebra 1)	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Algebra is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Algebra credit. Topics covered include: Arithmetic with Letters; Rules of Arithmetic; Linear Equations with One Variable; Applications of Algebra; Exponents and Polynomials; Factoring; Data, Statistics, and Probability; Fractions and Algebra; Linear Equations and Inequalities in the coordinate plane; Systems of Linear Equations; Irrational Numbers and Radical Expressions; Geometry Introduction; and Quadratic Equations.

Course Short Name	Course Title	Original Credit or Credit Recovery	Textbook or No Textbook	Reading Level/ SE Rated	LMS Platform	Credits	Course Description
Pre-Algebra	Pre-Algebra	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Pre-Algebra is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Pre-Algebra credit. Topics covered include: Algebra and Whole Numbers; Using Decimals; Number Theory; Rational Numbers; Basic Operations; Ratios, Proportions, and Percents; Integers; Exponents, Square Roots, and the Pythagorean Theorem; Equations from Geometry; Graphing; Geometry; Data, Statistics, and Probability.
Mathematics Pathways	Mathematics Pathways	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Math Pathways is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Math Pathways credit. Topics covered include: AKGrad is a comprehensive course that covers: Number Sense, Operations, Rational Expressions, Ratios, Proportions & Percents, Integers, Exponents, Equations, Graphing, Geometry and Statistics/ Probability.
Geometry	Geometry	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Geometry is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Geometry credit. Topics covered include: AKGrad is a comprehensive course that covers: Exploring Geometry: Points, Lines, and Angles in the Plane; Thinking Geometrically: Using Proofs; Parallel Lines and Transversals; Using Algebra: lines in the Coordinate Plane; Triangles and Quadrilaterals; Congruent Triangles and Transformations; Proportion and Similarity; The Pythagorean Theorem; Perimeter and Area; Circles and Spheres; Solid Geometric Figures and Their Measures; Geometry and Imagination.
Consumer Math	Consumer Math	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. AKGrad Consumer Math is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to recover an Consumer Math credit. Topics covered include: AKGrad is a comprehensive course that covers 12 topics of Consumer Math: Earning Money, Buying Food, Shopping for Clothes, Managing a Household, Buying and Maintaining a Car, Working with Food, Improving Your Home, Traveling, Budgeting Your Money, Banking and Investing, Paying Taxes, Preparing for Careers.
Basic English	Basic English	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. Basic English is a comprehensive course that covers the full range of 16 English topics: sentences; nouns in sentences; pronouns in sentences; adjectives in sentences; action verbs in sentences; using state-of-being verbs in sentences; using adverbs in sentences; using prepositional phrases in sentences; using conjunctions and interjections; recognizing sentence patterns; identifying verbals and verb phrases; writing compound and complex sentences; repairing sentence problems; understanding paragraph basics; writing better paragraphs; preparing to write a report.
Exploring Literature	Exploring Literature	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. Exploring Literature is a comprehensive course that covers Genres and writing styles by reading fables, myths, tall tales and legends, short stories, nonfiction, poetry, and drama. )
American Literature	American Literature	Original Credit, At Risk	AGS Textbook	Below Grade Reading Level	Canvas	1	This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. American Literature is a comprehensive course that covers Genres and writing styles by through writings about: Forging America's Literary Tradition: 1620-1849; The Inspiration of New England: 1837-1860; Local Color in America: 1849-1889; the Harvest of Realism and Naturalism: 1890-1908; American Literature Comes of Age: 1905-1940; Moving Into Modern Times: 1940-1970; and Contemporary American Literature: 1971-present.
